Save 75%

1 year to register your design
after disclosure

For free - unregistered designs at EU level (UCDs) are automatically protected for 3 years from the date they are first made public (disclosed). Starting from this date of disclosure (in the EU) you have ONE year to register your design.

For a minimal cost - registered designs at EU level (RCDs) give protection for 5 years and can be renewed up to a maximum of 25 years. One simple application and your design is protected in all 27 EU Members States in a couple of days! Registration usually costs €350, but if you apply to the SME Fund first, you can get 75% reimbursed (that's design protection in the EU for only €88).
